

Nuheat Controls

Non-Programmable Controls

Element Thermostat — Non-Programmable Control

The Nuheat Element thermostat is a non-programmable control that offers simple on/off capability for the Nuheat floor heating system. The thermostat offers the most basic type of control and features energy usage information, dual voltage compatibility (120V & 240V), a physical on/off switch, and built-in Class A GFCI protection.

Element Benefits:

- Non-programmable floor heating thermostat
- Energy efficient
- Floor sensing and ambient air sensing
- Suitable for tile, stone and laminate/ engineered wood floors
- Dual voltage compatibility (120V or 240V)
- Built-in G.F.C.I. (Class A)
- Manufacturer's limited three (3) year warranty

120 & 240 Volt Specifications

Model: Element
Supply: 120V/240V, 50/60 Hz
Load: 15 A max. (resistive load)
Power: 1800W @ 120V
3600W @ 240V
GFCI: Class A (5 mA TRIP LEVEL)
Approvals: UL C/US
